Membership Recruitment Program

The strength of the OCPA is with the membership. A strong membership base allows for the most up to date and relevant training to be provided by experts on the topic. A diverse membership of private sector and public sector crime prevention practitioners provides unparalleled networking opportunities and information sharing that can have a significant, positive impact on our community.

Our best recruiters for future members are our CURRENT members! Because of this, we have developed a Membership Recruitment Program to accomplish two goals:
- Provide an opportunity for current members to receive discount memberships, training credits, and access to our annual training conference
- Grow the OCPA membership with crime prevention practitioners and experts to continue the long standing tradition of being one of the largest and most influential crime prevention organizations in the country

When developing this program, we wanted to provide something that would be simple and easy to participate, have attainable rewards, and grow the overall membership of the OCPA. We also wanted to develop a program that would allow our members who are at an organization with financial challenges to have the opportunity to earn credits towards membership dues, training registrations, or conference registrations.
